Course: IT114-002-S2025

Assignment: IT114 Java Problems

Student: Trinity C. (tdc28)

Status: Submitted | Worksheet Progress: 110.00%

Potential Grade: 11.00/10.00 (110.00%) Received Grade: 0.00/10.00 (0.00%)

Grading Link: https://learn.ethereallab.app/assignment/v3/IT114-002-S2025/it114-java-problems/grading/tdc28

Instructions

- 1. Ensure you read all instructions and objectives before starting.
- 2. Create a new branch from main called M2-Homework
 - 1. git checkout main (ensure proper starting branch)
 - git pull origin main (ensure history is up to date)
 - git checkout -b M2-Homework (create and switch to branch)
- 3. Copy the template code from here: GitHub Repository M2 Homework
 - It includes Problems 1-4 and a BaseClass. Put all into an M2 folder or similar (adjust package reference at the top if you chose a different folder name).
 - Immediately record to history
 - git add .
 git commit -m "adding M2 HW baseline files"
 git push origin M2-Homework
 Create a Pull Request from M2-Homework to main and keep it open
- 4. Fill out the below worksheet
 - Each Problem requires the following as you work
 - Ensure there's a comment with your UCID, date, and brief summary of how the problem was solved Initial outline/plan of how you'll solve it via comments (add/commit after this stage)
 - Code solution (add/commit periodically as needed)
- Once finished, click "Submit and Export"
- 6. Locally add the generated PDF to a folder of your choosing inside your repository folder and move it to Github
 - 1. git add .
 - 2. git commit -m "adding PDF"
 - 3. git push origin M2-Homework
 - 4. On Github merge the pull request from M2-Homework to main
- 7. Upload the same PDF to Canvas
- 8. Sync Local
 - 1. git checkout main
 - 2. git pull origin main

Section #1: (2 pts.) Problem 1 - Odds

Task #1 (2 pts.) - Edit the `printOdds` method to output odd values

Combo Task:

Weight: 100%

Objective: Edit the 'printOdds' method to output odd values of the array

Details:

- · Only make edits where noted via provided comments
- · Challenge: Print odd values only in a single line separated by commas
- Step 1: sketch out plan using comments (include ucid and date)
- Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Item:#1

Weight: 40%

Details:

Two screenshots are expected

- 1. Snippet of relevant code showing solution (with ucid/date comment)
- 2. Full output of executing the program

Image Prompt

```
* Crinity Charles to Care this and the content of t
```

output for problem 1

Task #1 (2 pts.) - Edit the `sumValues` method to sum the array val

Combo Task:

Weight: 100%

Objective: Edit the `sumValues` method to sum the array values and present them in a format with exactly two decimal places

Details:

- · Only make edits where noted via provided comments
- Challenge 1: Sum all the values of the passed in array and assign to total
- Challenge 2: Have the sum be represented as a number with exactly 2 decimal
- Example: 0.1 would be shown as 0.10, 1 would be shown as 1.00, etc.
- Step 1: sketch out plan using comments (include ucid and date)
- Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Item:#1

Weight: 40%

Details:

Two screenshots are expected

- Snippet of relevant code showing solution (with ucid/date comment)
- 2. Full output of executing the program

Image Prompt

output for problem 2

code for problem #2

Saved: 2/17/2025 10:58:53 PM

Item:#2

Weight: 20%

Details:

Direct link to the file in the homework related branch from Github (should end in .java)

■ Url Prompt

URL #1

https://github.com/trinitydessyna/tdc28it11490002/M2-Homework/M2/Problem2.java

Saved: 2/17/2025 10:58:53 PM

Item:#3

Weight: 40%

Details:

Briefly explain how the code solves the challenges (note: this isn't the same as what the code does)

Text Prompt

Your Response:

The code solves the challenges by going through the arrays and finding the sum of the values, then arranging it to where the sum output only has 2 decimals places.

Saved: 2/17/2025 10:58:53 PM

Section #3: (2 pts.) Problem 3 - Conversion

Task #1 (2 pts.) - Edit the 'bePositive' method to make each value

Combo Task:

Weight: 100%

Objective: Edit the `bePositive` method to make each value positive, convert it back to the orginal data type, and set it to the proper slot in the `output` array

Details:

- · Only make edits where noted via provided comments
- · Challenge 1: Make each value positive
- Challenge 2: Convert the values back to their original data type and assign it to the proper slot of the output array
- Step 1: sketch out plan using comments (include ucid and date)
- Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Item:#1

Weight: 40%

Details:

Two screenshots are expected

- Snippet of relevant code showing solution (with ucid/date comment)
- 2. Full output of executing the program

≡, Image Prompt

```
// Indiange is more cash union positive
// Challenge is Convert the values basis to whele neighbor dated
// Ever is Challenge in the prepare
// Ever is Convert the values basis to first-basis used dated
// Ever is Convert that union the prepare
// Ever is the prepare to prove the proposed to dated
// Ever is the prepare to prove the proposed to dated
// Ever is the prepare that is the proposed to date to prove the proposed to date to prepare
// Ever is convert that interest is the prepare to prepare
// Ever is the prepare that is the prepared to prepare
// Ever is the prepared that is the prepared to prepared t
```

Details:

Briefly explain how the code solves the challenges (note: this isn't the same as what the code does)

■ Text Prompt

Your Response:

the code figures out which values are negative, converts them to positive, and converts them to their original data type

Section #4: (2 pts.) Problem 4 - Strings

Task #1 (2 pts.) - Edit the `transformText` method to solve the chal

Combo Task:

Weight: 100%

Objective: Edit the `transformText` method to solve the challenges

Details:

- · Only make edits where noted via provided comments
- · Challenge 1: Remove non-alphanumeric characters except spaces
- Challenge 2: Convert text to Title Case
- Challenge 3: Trim leading/trailing spaces and remove duplicate spaces
- Result 1-3: Assign final phrase to placeholderForModifiedPhrase
- Step 1: sketch out plan using comments (include ucid and date)
- Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Item:#1

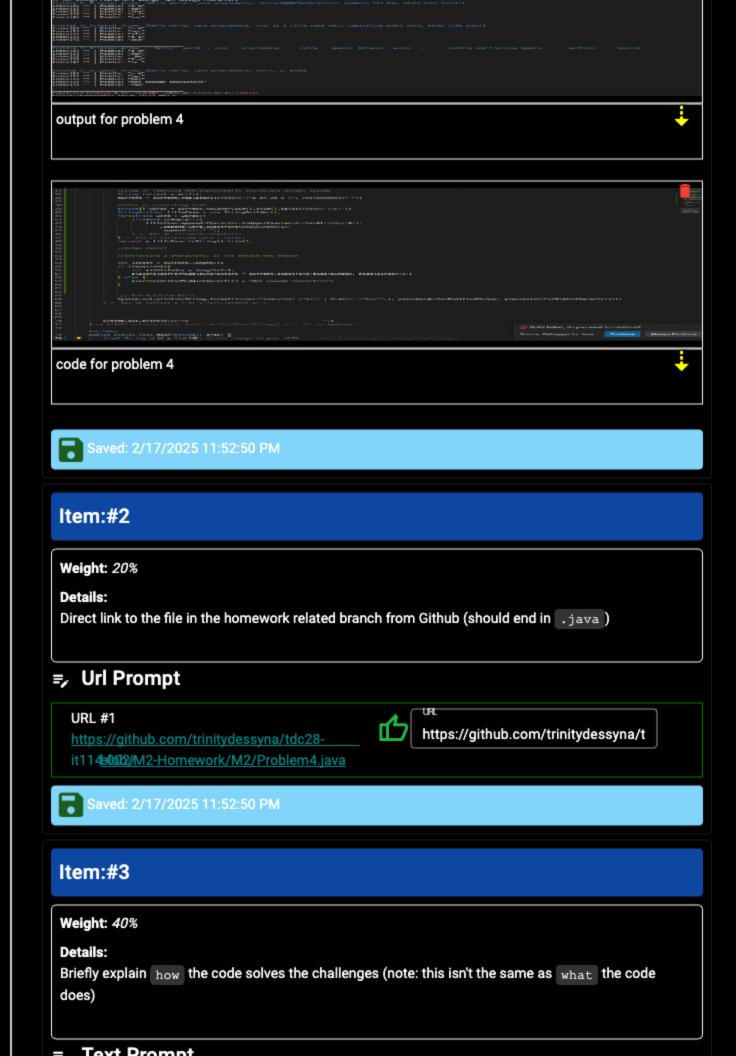

Weight: 40%

Details:

Two screenshots are expected

- 1. Snippet of relevant code showing solution (with ucid/date comment)
- Full output of executing the program

Image Prompt

Text Floilipt

Your Response:

the code completes the challenges by trying to capitalize the first letter of every phrase

Saved: 2/17/2025 11:52:50 PM

Task #2 (+ 0.90 pts.) - Edit the `transformText` method to solve the

Combo Task:

Weight: 45%

Objective: Edit the `transformText` method to solve the extra credit challenge (challenge 4)

Details:

- Only make edits where noted via provided comments
- Challenge 4: Extract middle 3 characters (beginning starts at middle of phrase)
- Assign result to 'placeholderForMiddleCharacters'
- · If not enough characters assign "Not enough characters"
- · Step 1: sketch out plan using comments (include ucid and date)
- · Step 2: Add/commit your outline of comments (required for full credit)
- Step 3: Add code to solve the problem (add/commit as needed)

Item:#1

Weight: 40%

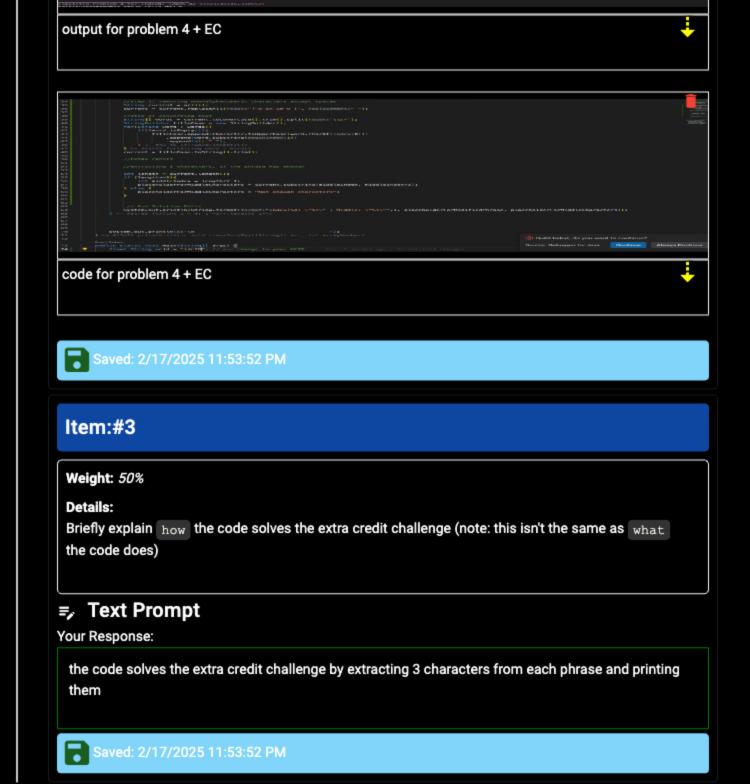

Details:

Two screenshots are expected

- Snippet of relevant code showing solution (with ucid/date comment)
- 2. Full output of executing the program

Task #2 (0.00 / 0.67 pts.) - WakaTime - Activity

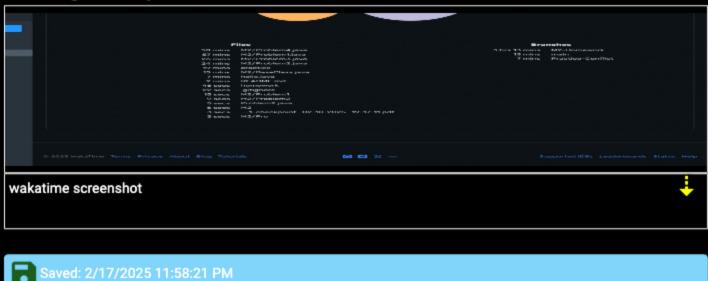

Weight: 33.33%

Objective: WakaTime - Activity

Details:

- Visit the WakaTime.com Dashboard
- Click Projects and find your repository
- · Capture the overall time at the top that includes the repository name
- · Capture the individual time at the bottom that includes the file time
- Note: The duration isn't relevant for the grade and the visual graphs aren't necessary

Image Prompt

Task #3 (0.00 / 0.67 pts.) - Reflection

Sub-Tasks:

Task #1 (0.00 / 0.33 pts.) - What did you learn?

Weight: 33.33%

Objective: What did you learn?

Details:

Briefly answer the question (at least a few decent sentences)

Text Prompt

Your Response:

Yes, I learned things during this assignment. I specifically learned different things about coding in Java. When I started this assignment, I was a bit lost and had to do some research on what to code or what the assignment was about.

Weight: 33.33%

Objective: What was the easiest part of the assignment?

Details:

Briefly answer the question (at least a few decent sentences)

Text Prompt

Your Response:

the easiest part of the assignment was the "git commit -m" part and the "git add M2" as well as the creating a new branch specifically for this assignment.

Saved: 2/18/2025 12:00:30 AM

Task #3 (0.00 / 0.33 pts.) - What was the hardest part of the

Weight: 33.33%

Objective: What was the hardest part of the assignment?

Details:

Briefly answer the question (at least a few decent sentences)

Text Prompt

Your Response:

the hardest part of this assignment for me was the coding overall, i still have a lot to learn when it comes to java and need to study more on it.
